MBH Bob Cat Hunt Coming Up

Liz Call

The first week-end after New Years Day each January is set aside for the annual MBH cat hunt. The '67 hunt will be the 8th one held in the Onaway area and the dates are January 7th & 8th. Headquarters for the hunt will be the Metropole Hotel where hunters may register for either or both days of the hunt. Registration fee is only \$1.00 plus your MBH membership card. This entitles you to hunt both days if you wish.

The usual group of Onaway guides will conduct the hunt with hunting groups forming at headquarters about 8:00 AM each morning. Then they will travel out of town by car to the hunting areas located by the guides earlier in the morning.

Only bow hunting tackle may be used and don't forget your small game license. Dress warmly but keep the weight as light as possible — 'cause YOUR two feet will have to carry it. And speakin' of feet, you should bring snow shoes — just in case. Several times in the past few years they haven't been needed but you never know what the weather will be this time.

There will be a Saturday evening supper at the Metropole Hotel — set up buffet style as before. A small fee will be charged at the door for this meal but at this writing the menu and cost per person have not been decided upon.

President of the Chamber of Commerce, Sam Alexander, has given us the word that again this year the merchants of Onaway will contribute prizes to be given at the Saturday evening supper.

Hackney's Restaurant, just "kitty-cornered" from the Hotel will be open for breakfast early Saturday

morning and Elinore's Restaurant three miles west of town will be open about 6:00 Sunday morning — each serving good substantial food for a fair price. Some of the other local restaurant owners are not sure they will be open that early.

Room or motel reservations may be made ahead of time by writing Jack Cannon, owner of the Metropole or MBH District 3 Governor, Hewitt Gall — address for either is Onaway, Michigan-49765. In case you wish to phone, call the Galls, 733-6843 and the area code no. is 517.

'Nockin' Round Th' North

Liz Call

Last spring a small group of archers organized an association known as the Northern Bow Hunters. President of the association is Hershel Dunshee of Petoskey and secretary-treasurer is Sandra (Sandy) Bowerman of East Jordan. Main purpose of this group is to get together for plenty of hunting, target practice

and to have group hunts. Their past summer schedule included a "sucker shoot", a "Carp shoot", a couple of hunter and animal target shoots, and a big game silhouette shoot. NBH members are looking forward to more of the same for next year.

Our north country has had a very harassing summer for the wildlife.

VP's MESSAGE

It is a great honor for me to accept the appointment of Vice-President of the Michigan Bow Hunters, to fill the unexpired term of President Earl Foertser. I accept this position with honor, and hope I will be able to assist in the progress of Bow Hunting in the State of Michigan as we know it must be progressed.

As you probably know during the 1965-66 legislative session we attempted to get another 15 days hunting immediately following the rifle season. This bill was introduced in the House of Representatives and never reported out of the Conservation Committee. With help from all the Bowhunters in the state we are hoping a similar bill will be passed in the 1967 session. I will be working on legislation as a member of the MBH legislative committee and doing my utmost to get a post season for the bow hunters.

Most of you know by now that the rules for the 1966 season remained the same as in 1965 with the exception of using a plastic deer kill tag instead of a metal seal. The new tag attached to the leg of the deer.

It was a pleasure for me to assist in the 17th Annual MBH Deer Silhouette Shoot at Caro on September 24 and 25th and think that Caro should be commended for a fine job well done.

Douglas Bartrem
MBH Vice-President

Please note all score cards were corrected so if your score is listed different than what you thought it was means there was an error in addition on your card. We listed whether each shooter was instinctive or free style except where the class was not listed on the card.

Our sincere thanks to Tuscola County Archers and Lapeer Bowmen for a fine week end and an excellent shoot. It was very gratifying to your Officers when many of the shooters took time to stop and tell us how well they liked the course and expressed their opinion that it was the best they had ever shot. I am sure the local members appreciated this too, as they had put in many, many hours in preparation for this event.

Our thanks also to Walt and Jean Smith for collecting in the prizes, and to Rex, Marge and Bruce Holbrook for taking care of the prizes. To all of the girls in the registration tent and to Officers, Governors and local club members for the many chores it takes to keep this tournament running smoothly each year.

PRIZE DONORS

The following list of Archery Dealers and Manufacturers donated all of the merchandise awards won by our members at the Deer Silhouette Shoot. Door Prizes are supplied by the Organization.

"PATRONIZE THESE DEALERS AND MANUFACTURERS" and when possible, tell them you as a MBH member appreciate their support of our annual deer silhouette shoot.

'Nockin' Round Th' North

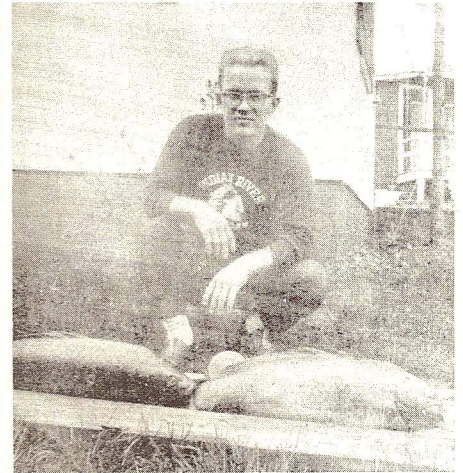

(continued from page 1)

First came that cold snowy Memorial Day to blast fruit blossoms. Then came one of the worst dry seasons on record. Wildlife was hard hit by the absence of berries — those fruits that the frost missed dried up in the hot dry air. One complaint was received of raccons pulling oats down in farm fields for food. There is much evidence of bear searching for food in Cheboygan County — bushes and small trees mangled while fruits were still green. Even coyotes have been sighted close to summer cottages looking closely for things edible. The dry season created still a worse hazzard for the game, as fields and forest were so tinder dry that it took very little to start things burning. The forest fire boys were on 24 hour alert and practically lived in their hard hats — constantly putting out small fires. They did manage to contain them in most cases. Early in the season though

the Damon fire in Ogemaw County area around Rose City and West Branch took 4,000 acres. Then in the first part of July a two mile long fire was stopped by backfire in Crawford County. As if this wasn't enough, the insects moved it — the jack pine budworm, the larch sawfly, and the Saratoga spittlebug which attacks the red pine. The U.S. Forest Service sprayed a 400 acre area in Oscoda County and some in Crawford for spittlebug. In spite of these terrible conditions, the fawn crop was good and adult deer sighted here were in good shape.

The Onaway Bow Hunter guides and dog owners who conduct the annual MBH Cat Hunt have taken advantage of the legal training season to put their dog on coon — just for the chase — as often as possible. The object being to get the dogs trimmed down and limered up after their three months of being penned in. These men train their dogs to run what ever game they put them on the track of, so that they can have a "chase" of some kind the greater part of the year. So, following the coon chase training of August, dogs and men go north in the U.P. and try their luck at chasing Michigan's Black Bear. In October & November they are back again at the coon. Then just as soon as the snow flies the fox and coyote are the chased, with the bob cat catching it in January and part of February. By March they back again to the fox and coyote till the snow leaves the ground. On their bear

hunt this year they were lucky enough to have one treed and had a good chase at another. But then the rains came and they had trouble finding a track. One dog failed to return from the hunt and another suffered slight injuries from the bear. This didn't cool their ardor much though as any of the hounds start soundin' off the minute a pick-up or huntin' car (all well known to the dogs) comes in the drive. — all hopin' they will be the ones to be let loose on a hot track.

Carl Anderson of Dowagiac placed second with the carp on the right that weighted 35 pounds 9 ounces, 38 inches long and girth of 35 inches. Carp on the left weighted 30 pounds 3 ounces.
